## Parking with a plus

FRONT LEFT CORNER VIEW

The Kearsarge garage is the answer to your parking and storage problems. This attractive and versatile building works equally well as a 3-stall garage, or as a 1- or 2-stall garage with a shop or storage space. And there's more room for storage above!

Timber frame barns are completely at home in a rural environment. They've been a part of the New England geography for centuries, after all! Brooks Post & Beam barns and garages are made primarily of native New Hampshire lumber; the walls can be composed of a simple, affordable layer of shiplap boards, just as they were 100 years ago!

And while any timber frame structure will allow for flexibility, a barn can be even more versatile and responsive over time as your needs change.

Just move your partitions if you decide you want to turn your horse stalls into a parking area, apartment or art studio!
